INDEPENDENT AUDITORS' REPORT

July 5, 2017

Finance Committee
Central Wesleyan of Holland
Holland, Michigan

We have audited the accompanying statements of financial position of the *Central Wesleyan of Holland*, (the "Church") (a Michigan not-for-profit organization), as of May 31, 2017 and 2016, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on auditor judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Church's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Church's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Central Wesleyan of Holland, as of May 31, 2017 and 2016, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

CENTRAL WESLEYAN OF HOLLAND

Notes to Financial Statements

1. NATURE OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

Central Wesleyan of Holland (the “Church”) is a local body of believers and is part of the world-wide Wesleyan Church denomination. The Church averaged 4,201 and 4,002 individuals in morning worship attendance during the years ended May 31, 2017 and 2016, respectively. During 2017 and 2016, approximately \$7.2 million and \$8.6 million, respectively, was received in contributions by the Church for it to carry on its mission of reaching Holland and beyond with the Gospel of Jesus Christ.

The Church employs a full-time equivalent staff of 47. In addition to paid staff positions, the ministries of the Church use volunteers in more than 1,500 ministry positions.

The primary ministries of the Church are public worship services, graded Christian education classes, after school programs for under-privileged children, missions in Holland and around the world, and a wide range of programs for special needs such as financial counseling and divorce recovery.

The Church has approximately 254,500 square feet of buildings set on 113 acres of land on the south side of Holland, Michigan. The Church is considered a regional church and has a wide influence beyond the City of Holland. During the year ended May 31, 2017, the Church opened a second satellite location, The Local Church, in the Grand Rapids area.

The Church's revenues consist primarily of contributions from members.

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the year. Actual results could differ from those estimates. Significant estimates include, but are not limited to the useful lives of depreciable assets and the fair value of investments.

Basis of Presentation

The Church reports information regarding its financial position and activities based upon the existence or absence of donor-imposed restrictions according to three classes of net assets: unrestricted net assets, temporarily restricted net assets and permanently restricted net assets. Unrestricted net assets generally result from revenues derived from providing services, receiving unrestricted contributions, and interest from investing in income-producing assets, less the expenses incurred in providing services, raising contributions, and performing administrative functions. Temporarily restricted net assets generally result from contributions and interest from investing in income-producing assets, and other inflows of assets, which are held for specific purposes as stipulated by the donor. Temporarily restricted net assets are released from restrictions by the passage of time or by actions of the Church, pursuant to the donors' stipulations. Permanently restricted net assets result from donor-imposed restrictions that limit the use of net assets in perpetuity. The Church had no permanently restricted net assets as of May 31, 2017 or 2016.

CENTRAL WESLEYAN OF HOLLAND

Notes to Financial Statements

Cash and Cash Equivalents

Cash and cash equivalents consist of demand deposits in banks, cash on hand, and money market accounts. The Church maintains demand deposits in banks that are insured by the Federal Deposit Insurance Corporation up to \$250,000 per bank. At times during 2017 and 2016, the Church's bank balance on these accounts may have exceeded the insured limit. Management believes the Church is not exposed to any significant interest rate or other risk on these deposits.

Investments

Investments held by the Church consist of bond mutual funds and money market funds. These investments are presented as current as management considers them to be part of normal cash management activities. Such investments are carried at fair value, based on quoted market prices. Investments received as donations are initially recorded at fair value on the date of receipt. Realized gains and losses on the sale of investments are determined based on the first-in, first-out method. Unrealized gains and losses are the result of changes in market value of investments and are included in investment income.

Fair Value Measurements

Fair value refers to the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants in the market in which the reporting entity transacts such sales or transfers based on the assumptions market participants would use when pricing an asset or liability. Assumptions are developed based on prioritizing information within a fair value hierarchy that gives the highest priority to quoted prices in active markets (level 1) and the lowest priority to unobservable data, such as the reporting entity's own data (level 3).

For a further discussion of Fair Value Measurements, refer to Note 2.

Pledges Receivable

Pledges receivable that are expected to be collected within one year are recorded at net realizable value. Pledges receivable that are expected to be collected in future years are recorded at the present value of their estimated future cash flows. The discounts on those amounts are computed using risk adjusted interest rates applicable to the years in which the promises were made. Amortization of the discount is included in contribution revenues in the statements of activities. Pledges receivable is stated at the amount management expects to collect from outstanding pledges at year-end. Management's estimate of the allowance for uncollectible pledges is based on historical collections from prior pledge campaigns.

Beneficial Interest in Charitable Remainder Annuity Trust

The Church is the sole beneficiary of a charitable gift annuity contract that was established between a donor and The Wesleyan Church Corporation. Accordingly, the Church has recognized contribution revenue and a receivable from The Wesleyan Church Corporation equal to the present value of the estimated future distribution expected to be received when the agreement expires, which occurs at the death of the donor. The discount rate used to calculate the present value of the annuity contract was 5.4%, with actuarial assumptions based on published life expectancy tables adopted by the Internal Revenue Service. The carrying value of the agreement is reported as a time restricted component of temporarily restricted net assets.

CENTRAL WESLEYAN OF HOLLAND

Notes to Financial Statements

Property and Equipment and Depreciation

Property and equipment are stated at cost or, in the case of donations, estimated fair value. Property and equipment items are capitalized at cost when paid for all new assets over \$10,000 and \$50,000 for repair or renovations to an existing asset. Management annually reviews these assets to determine whether carrying values have been impaired. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets, which range from 5 to 40 years.

Contributions

Contributions received, including unconditional promises to give, are recorded as unrestricted, temporarily restricted, or permanently restricted support, depending on the existence or nature of any donor restrictions. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets in the statement of activities. All other restricted support is reported as an increase in temporarily restricted or permanently restricted net assets, as applicable.

Income Taxes

The Church is a not-for-profit organization, exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code, and is exempt from similar state and local taxes. Accordingly, no provision has been made for income taxes in the accompanying financial statements. Although the Church was granted income tax exemption by the Internal Revenue Service, such exemption does not apply to “unrelated business taxable income.” Such income, pursuant to the Internal Revenue Code and related regulations, includes investment income such as interest received from sources other than directly from program fees.

The Church analyzes its filing positions in the federal and state jurisdictions where it is required to file income tax returns, as well as all open tax years (2012 through 2016) in these jurisdictions to identify potential uncertain tax positions. The Church treats interest and penalties attributable to income taxes, and reflects any charges for such, to the extent they arise, as a component of its administration expenses. The Church does not have any amounts accrued for unrecognized tax benefits at May 31, 2017 and 2016.

Reclassifications

Certain amounts in the May 31, 2016 financial statements have been reclassified to conform with the May 31, 2017 presentation.

Subsequent Events

In preparing these financial statements, management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to May 31, 2017, the most recent statement of financial position presented herein, through July 5, 2017, the date these financial statements were available to be issued. No significant such events or transactions were identified.

CENTRAL WESLEYAN OF HOLLAND

Notes to Financial Statements

2. INVESTMENTS AND FAIR VALUE MEASUREMENTS

The Church utilizes fair value measurements to record fair value adjustments to certain of its assets, and to determine fair value disclosures. These assets are recorded at fair value on a recurring basis.

The Church groups its assets at fair value into three levels (termed the fair value hierarchy), based on the markets in which the assets are traded and the reliability of the assumptions used to determine fair value. These levels are:

Level 1: Valuation is based upon quoted prices for identical instruments traded in active markets. Level 1 securities include those traded on an active exchange, such as the New York Stock Exchange, U.S. Treasury securities that are traded by dealers or brokers in active over-the-counter markets, and money market funds. The Church considers its marketable investment securities to be Level 1 assets.

Level 2: Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market. The Church holds no assets classified as Level 2.

Level 3: Valuation is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect estimates of assumptions that market participants would use in pricing the asset or liability. The Church considers Investments held in Wesleyan Investment Foundation and the beneficial interest in charitable remainder annuity trust to be classified as Level 3 assets.

The preceding methods described may produce a fair value calculation that may not be reflective of future fair values. Furthermore, although the Church believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The activity for the years ended May 31, of the Level 3 investment in Wesleyan Investment Foundation assets were:
