

4th of July

2 JULY 2023

1. When you think about the USA and the Biblical principles it was founded on, what is one way you think we can work to uphold those principles today in our every day lives?
2. At the end of the Declaration of Independence Jefferson writes that they “pledge to each other our lives, our fortunes and or sacred honor.” They were doing this in the hopes of creating a new country. We have an even greater citizenship as citizens of Heaven but often it does not feel like we have near the commitment as our founding fathers of this country did to pledge our lives, money and honor in support of the Church. Why do you think Christians struggle to display this level of commitment on a daily basis? What’s one way you can work towards displaying and living as committed to the faith as our founding fathers did to the country?
3. Whether it’s a drug, habit, social media, sugar, caffeine, money, success, affirmation, we all struggle with needing, craving and wanting different things. What is one area in your life where it’s hard for you to walk in freedom? Why is that area difficult for you? How could you step into freedom in that area?
