## The Great Crash

**Dan Davis and Craig Rees | 29 October 2023**

1. Preventing "a great crash" is more than just listening to the words of Jesus; the difference lies with us actually putting His words into practice. Where in your life do you see an inconsistency gap between the words of Jesus you know versus what you're actually putting into practice? If the Holy Spirit brings something specific to mind, how can you confess your gaps and receive His grace?

2. Living cautiously and trying not to mess up are not enough to prevent a "great crash." We also need to live passionately and proactively, which includes making worship a priority in our life. How are you prioritizing worship on Sundays? Between Sundays?

3. Who encourages you to live out the Kingdom values of Jesus in your life rather than pressuring you to keep the rules of religion? How do they do that for you? How can you do that for others?
